Here is what Prisca, a Tapori group facilitator, wrote us :

"On February 15, the children from Tapori in Antohomadinika, (Madagascar), and from the Andramiarana street library got together. There were about 200 children who met for the first time in the House of the Fourth World Movement at Ambohibao.

They thought about the anniversary of Joseph WRESINSKI's death. They also played a few games. Then all the children gathered in the main room to watch a video from children in Central Africa.

One facilitator spoke about Central Africa and, as they watched the video, she translated some of the children messages into Malagasi.

The children listened in complete silence, and at the end everyone applauded.

Tsogan, a ten-year-old girl, said:

"You, the central african children, are our far-away friends. Thank you for your message in these songs." Since then we sing these songs during our Tapori meetings or at the street library."

You can discover these songs on our website : www.tapori.org/site/fr

Here are some of the drawings sent by Yvon who started an activity around books, games and drawings in a Bangui neighborhood.

"All the children came. Their parents were happy to see a first step towards peace. It gave them hope for their children who, during that time, could feel free to learn and have fun."

You will find the
TREE OF THE RIGHTS OF THE CHILD
at the back of this page.

On each piece of fruit you wrote what
a child needs in order to grow up well.

On the bark of the tree and the roots you
wrote what you are doing for these rights
to become a reality.

Lorraine, Mauritius
