

Tapori newsletter

Tapori is a worldwide friendship network which brings together children from different backgrounds who want all children to have the same chances. They learn from children whose everyday life is very different from theirs. They think and act for a fairer world by inventing a way of living where no one is left behind.

May - July 2022

In search of our human treasures

We are continuing our search for our human treasures. We have been thinking about how being together with everybody brings us joy, strength and hope. Among the shared moments, there are celebrations. We celebrate the joy of being together!

In this Newsletter, you will tell us about the celebrations your families participate in with others, and you are going to imagine a festive time to celebrate being together. And everyone will be invited.

Come and discover the Tapori group in Mauritius!

Hello dear Tapori members. We live in Mauritius, which is a very small country. People of different origins learn to respect and accept one another.

We are three Tapori groups and each one has its own character, because that is the way in our country.

Thanks to this spirit of togetherness in Mauritius, we celebrate festivals from cultures and religions other than ours, they are all important. Sharing is what we have in common.

Even though we are not all Hindus, the festival that really unites us and in which everyone in the country participates is Diwali. During this festival we celebrate light overcoming darkness. Each family bakes cakes to share with their neighbours and decorate our houses. We children love this festival because there are lots of cakes and because we can play in our neighbourhood.

Tapori children must learn to respect these celebrations because our ancestors used to celebrate them. The differences are no longer visible.

And where you live, is there a festival that brings everyone together?

From Mauritius, we have shared with you how good it is to be different and that it is important to show our differences. We know that elsewhere, Tapori is also different from Tapori here, with different cultures and different celebrations.

If we were to think of a Tapori party, we would call it "The friendship party". We could play lots of different games, with each person bringing their own culture. We could even invent our own musical instruments. At the end, we would set off fireworks!

What about in your Tapori group, what kind of celebration will you prepare so that everyone can join in?

Hujambo Tabori!

In the Democratic Republic of Congo, our groups are rich in numbers and treasures. Here is the story that the Tabori children of the Kadutu group present us from proverbs.

One day at school, it was exam time and Dorcas realized that she had forgotten her pen at home. In the classroom, she asked Aline to lend her her pen.

After the exam, some of her classmates asked her: “How did you get Aline to give you the pen when she hardly talks to anyone and doesn’t give her things?”

Dorcas answered: “**O’bwira buchiza**” which means friendship makes all the difference.. Her classmates did not yet know that Dorcas and Aline were beginning to be friends.

Back home, Dorcas starts to explain to her mother what happened to her at school. And this is what her mother told her: “No one can put a boat in the sea alone.” That means that union gives strength, together we are stronger. Without friends, we are nothing in life.

Karibuni kwa wote! (See you soon in Swahili)
