

# Activity: Learning from others!

Learning from others is very important for us in Taporí, because we also grow up thanks to the experience and knowledge we gain.

We have shared with you examples of what each of the Newsletters in the “Searching for our Human Treasures” campaign has taught us. But in reality, what we have learnt is much greater!

With your treasure boxes, your self-portraits, your stories inspired by proverbs, your hearts and brains jigsaws and the posters of your celebrations, you have shared with us a wealth of learning. All of this has been gathered into five albums, which we share with you in this Newsletter.

It's up to you now! We invite you to create your own album with your group. For each Newsletter, you will choose a creation produced by another Taporí group and will let us know what you learn from it.

Send us your album to [taporí@taporí.org](mailto:taporí@taporí.org) and each group will then receive an album made by another group!
