The activity programme:

Each child received a sheet of paper to keep at home for a week to draw their portrait on.

Next they presented their portrait and gave explanations to the rest of their group.

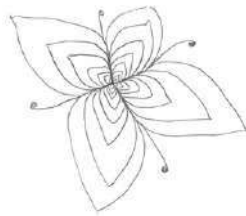

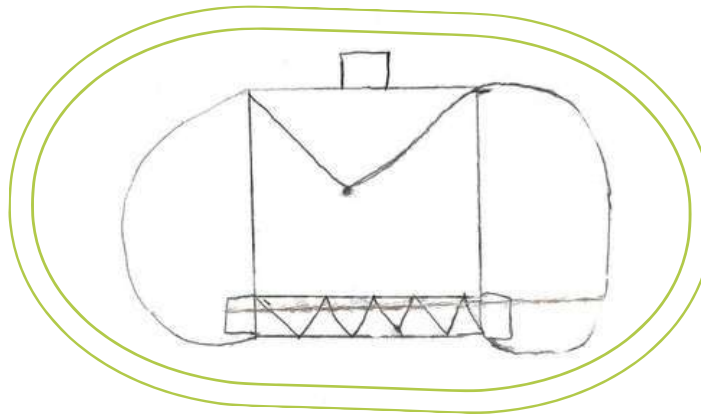

**ZOODO TAPORI GROUP,
OUGADOUGOU, BURKINA

A bag, because
I carry it each
morning to go to
school. Raza

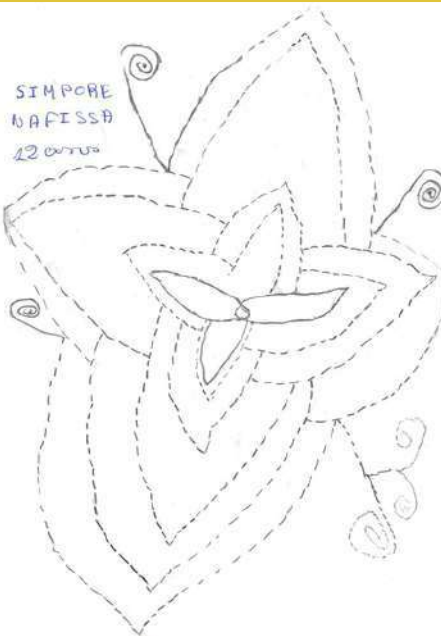

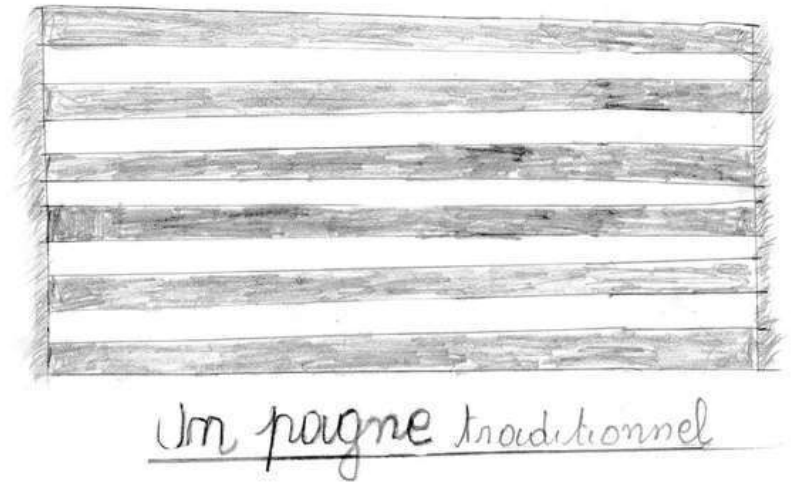

A doll, because it
represents my mum
and I love my mum.
Zalisa Tientoré

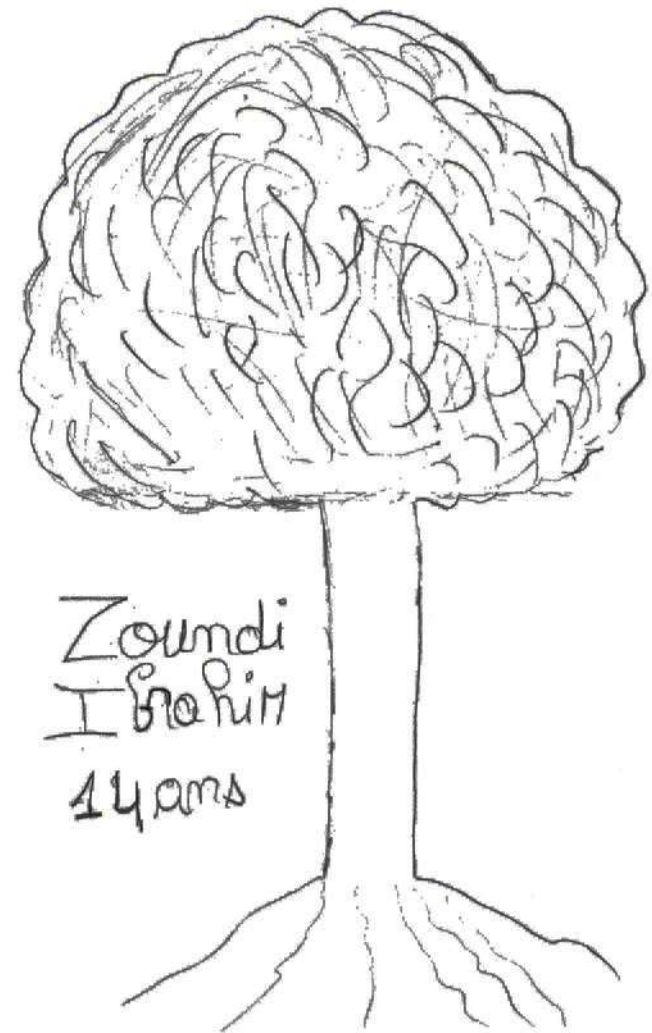

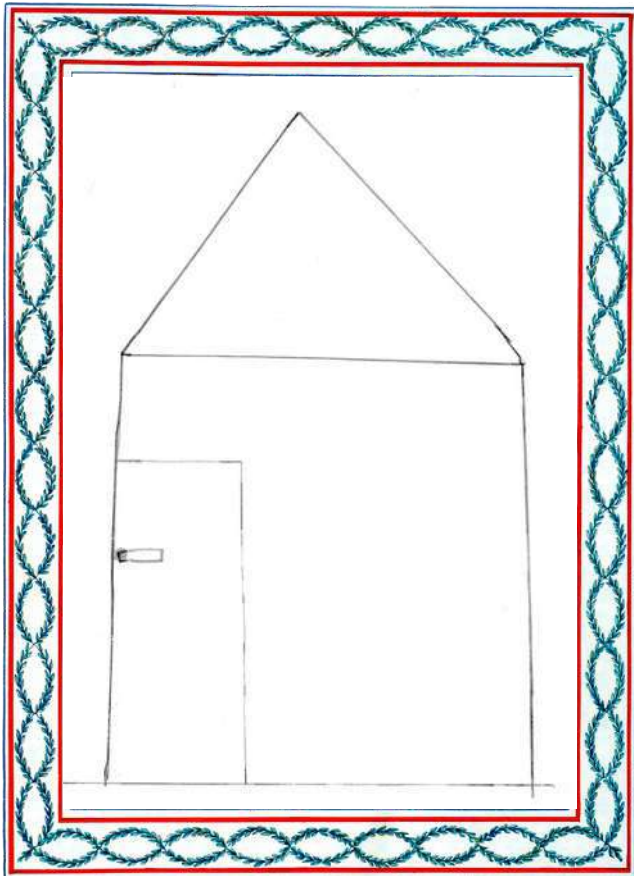

A traditional African
robe as I love
traditional robes.

Roxanne

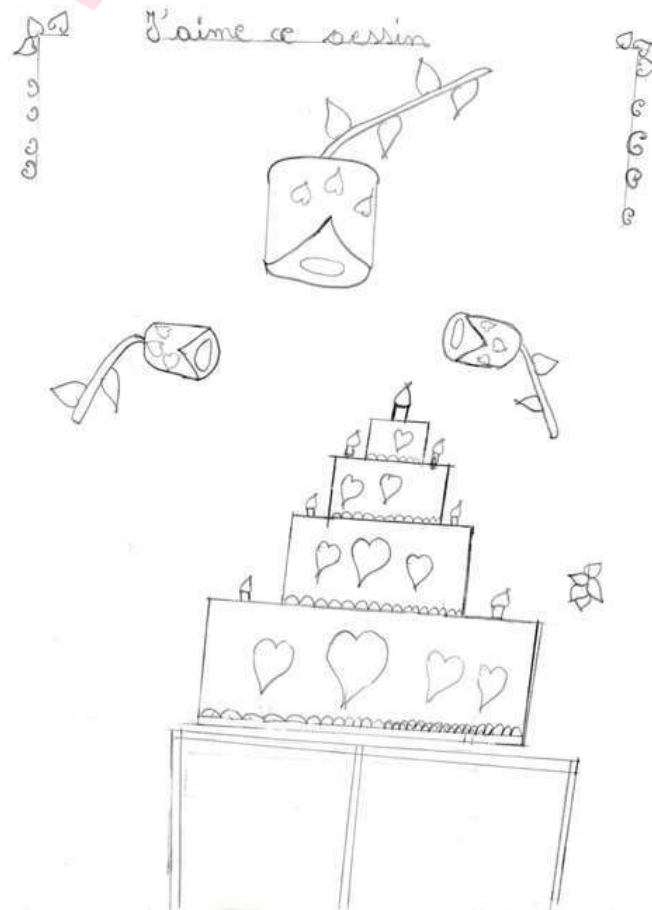

I represent
myself by a
flower as it
decorates our
new house.
Nafisa Simpore

Because without a
house we
wouldn't know
how to grow up.
Melissa.

It's a treasure for me as it gives
us fresh air. Ibrahim Ouedraogo

A cake, as I love
cakes. Alibata
Ouedrago

I used a bicycle to
represent me as I
pedal my bike
everyday.

The activity programme :

Each person must say something important about themselves. One child starts, the second one repeats what the first one said and then adds something that is important for themselves.

To gradually lead towards the work on the portrait we read the story of Ono and René as these two boys relate how they are part of Tapori in the star group, in RDC.

Next, the children each cut out and decorated a star. In each of its points they wrote something important for them : their favourite sport, clothes, activity, dream, what they like playing...Each one chose and then started to make their portrait. In the centre of the star, each person wrote their name. They were then able to glue it onto our treasure chest.

TAPORI GROUP : THE WORRYING ABOUT SOLIDARITY SAUSAGES, IVORY COAST

I am proud of myself because if people say that you are no good, all of that will become true, we won't be good at anything, we will have no confidence in ourselves. If we are never proud of ourselves, it's not cool. Delphine

I have a good sense of humour. If I didn't and I wasn't funny noone would like to be my friend as I would be too serious. I amme, I'm unique, I am generous. Sophie

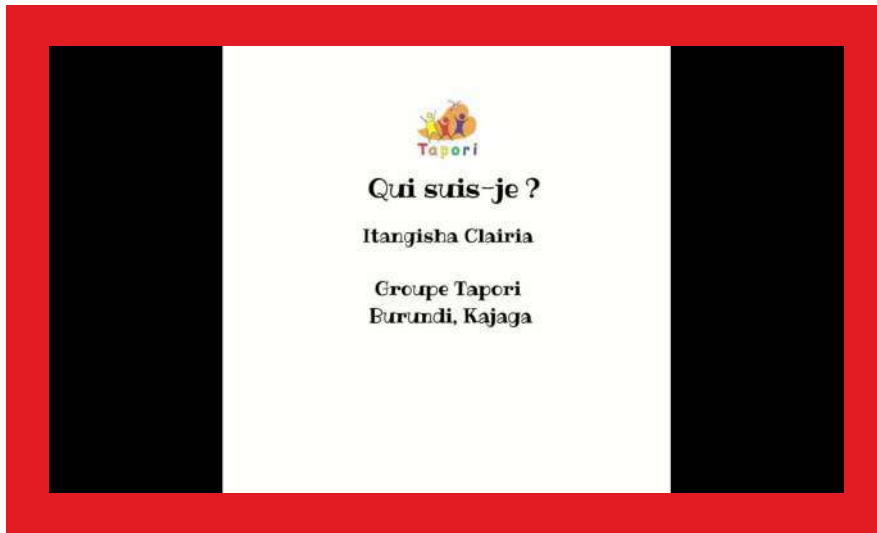

When I think about myself, the word that comes to me is sport. Also generosity, that immediately comes to mind.

It's very important generosity in a world like this. It's very worrying if there is no generosity and noone shares. Sharing is very important. Titouan

At home I do all I am asked to do, I like sharing. In the neighbourhood I am polite and I respect everybody.

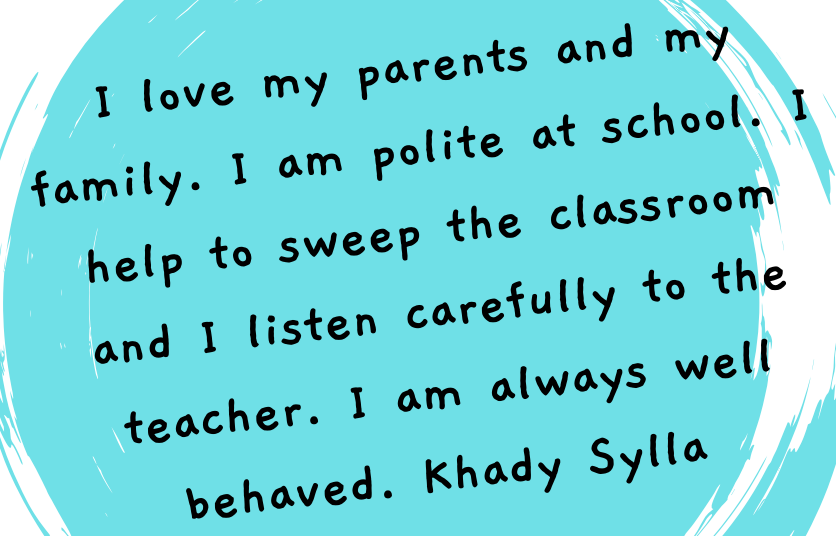

I dream of never being separated from my parents. I wish that my dad would be on good terms with my mum, but also of being president of the Republic, in the future.

Aminata Ndiaye

I am a good girl, I am kind and I do all that is asked of me. At school I do well in learning my lessons and I listen attentively to the teacher.

Aby Seck

I love my parents and my family. I am polite at school. I help to sweep the classroom and I listen carefully to the teacher. I am always well behaved. Khady Sylla

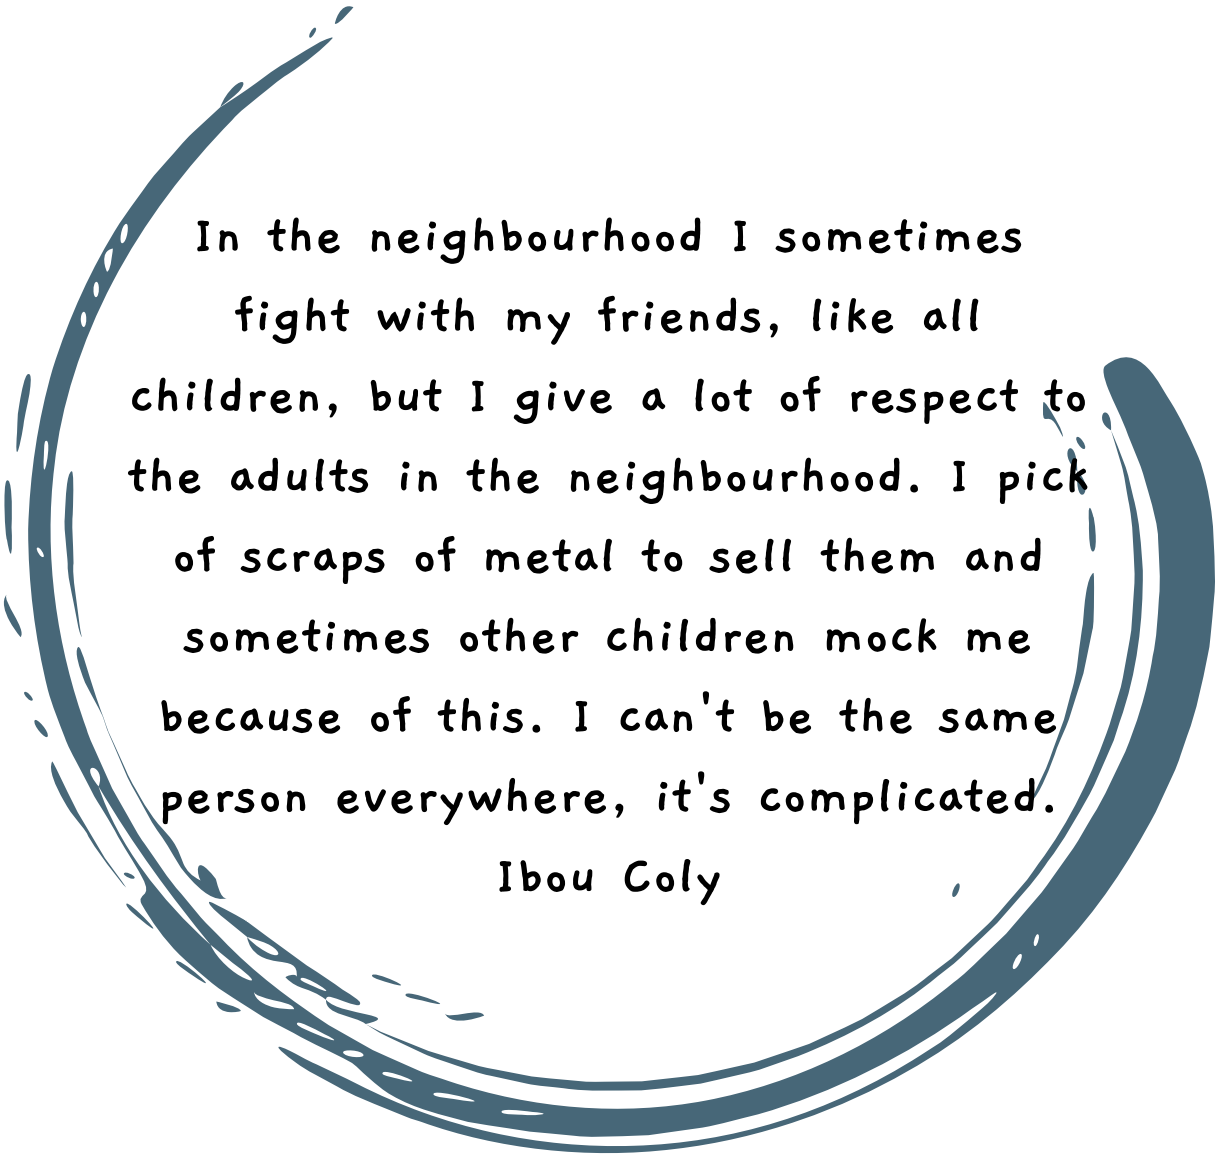

I believe in God.

At school I am polite and I like playing with my friends. If someone hurts me I tell them so.

At home I do everything without expecting any return. In the neighbourhood it is different from other places because I like to play and have a laugh with people.

Khabi Alassane Dia

In the neighbourhood I sometimes
fight with my friends, like all
children, but I give a lot of respect to
the adults in the neighbourhood. I pick
of scraps of metal to sell them and
sometimes other children mock me
because of this. I can't be the same
person everywhere, it's complicated.

Ibou Coly

Dreaming for me is

sleep, you can
dream while awake.

In Madrid, Spain there are 3 Taperi groups, named after the neighborhood where the children live:

Taperi Parla

Taperi Ventilla

Taperi Entre Vias

TAPORI MADRID, SPAIN

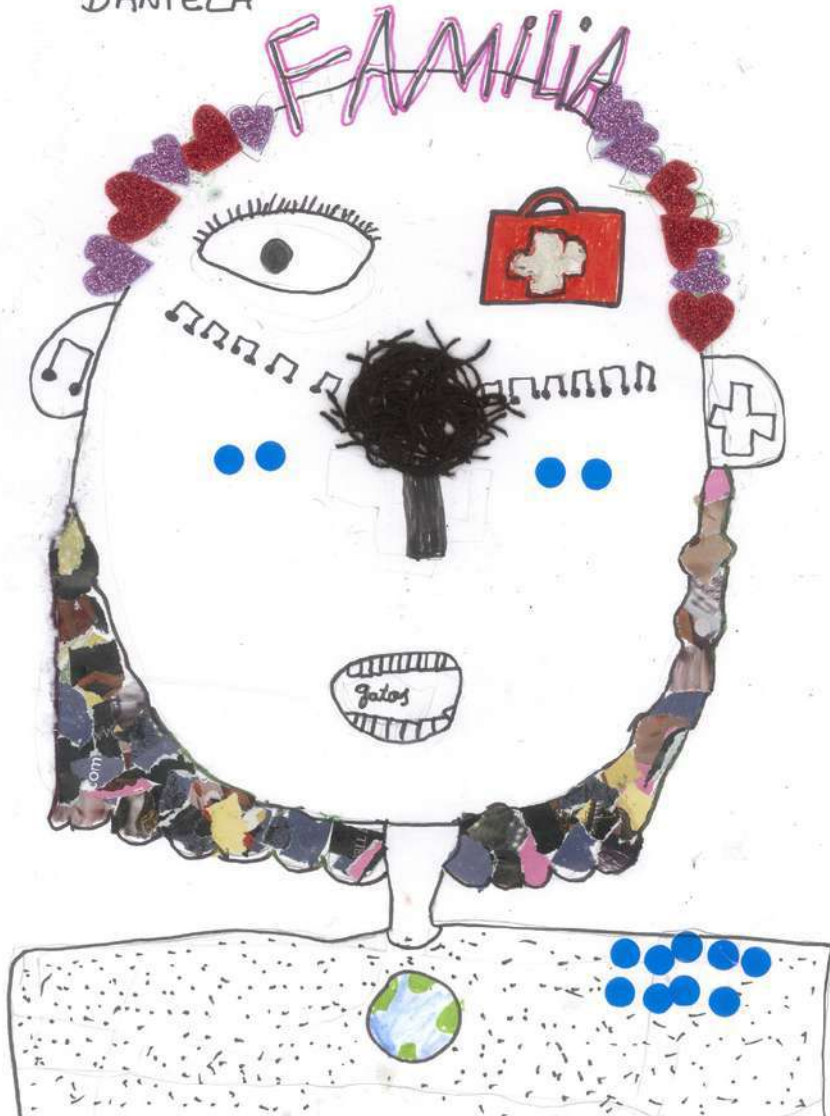

I like colors very much, I am a happy girl, that's why my hair is made up of strands of several colors, although mine is black and curly.

I love my neighbors who love me very much and my family. On my nose I put a smiley face because that's what I like and my mouth is a stethoscope because when I grow up I want to be a doctor. I love nature very much and we have to take care of the Earth. That's why my eyebrows are forests and one of my eyes is a flower. I especially want to go see my family in Morocco, I have a lot of fun when I go there. I like to play and be with my friends at school, I like to go to school to learn and to be with them. **Sarah**

Taperi Parla

DANIELA

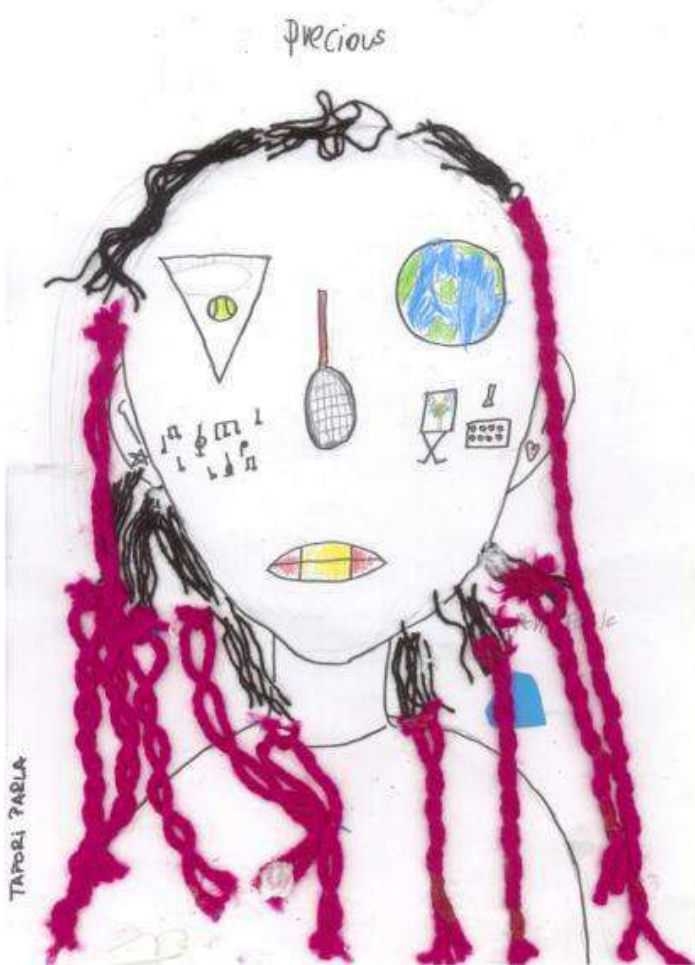

When I grow up I would like to be a doctor, that's why I put it in one eye, because that's the future and that's how I want to see it. For me the most important thing is my family, I love them very much and they love me, I put them in my head because they can occupy all my thoughts, but I always do it with love, that's why I surrounds it with hearts. I also like to listen to music, do Tik Tok and sing. My nose is a microphone because it delights me to sing. **Daniela**

I like sports a lot, especially tennis, that's why one of my eyes is a ball and my nose is a racket. I listen to a lot of music, I do the dances and I know the songs. I also really like painting

and draw, that's why I have everything I need to make a painting, the brush, the paints and the easel. We talk a lot about the earth at school, how to take care of it, that's why I put one of my eyes as big as the world I live in.

My mouth is the flag of Spain, I was born here and I consider myself Spanish even though my name, skin color and surname don't show it. For me it is important to say that Spain is my country, not only where I live, but also where I feel comfortable. I always wear long

colored braids in my hair, it is important that they appear in my portrait, because it is something that characterizes me. **Precious**

TAFORI PARLA
YADIRA

I like animals very much, especially dogs, that's why my nose is a dog. I also really like cooking and music, my eyes represent these two things that I love. I don't know if when I grow up I'll still love cooking to become a chef, I'll see. We have to take care of the earth because there is only one, I drew one on my clothes and also put a tree because we should plant more to make this planet last a long time. **Yadira**

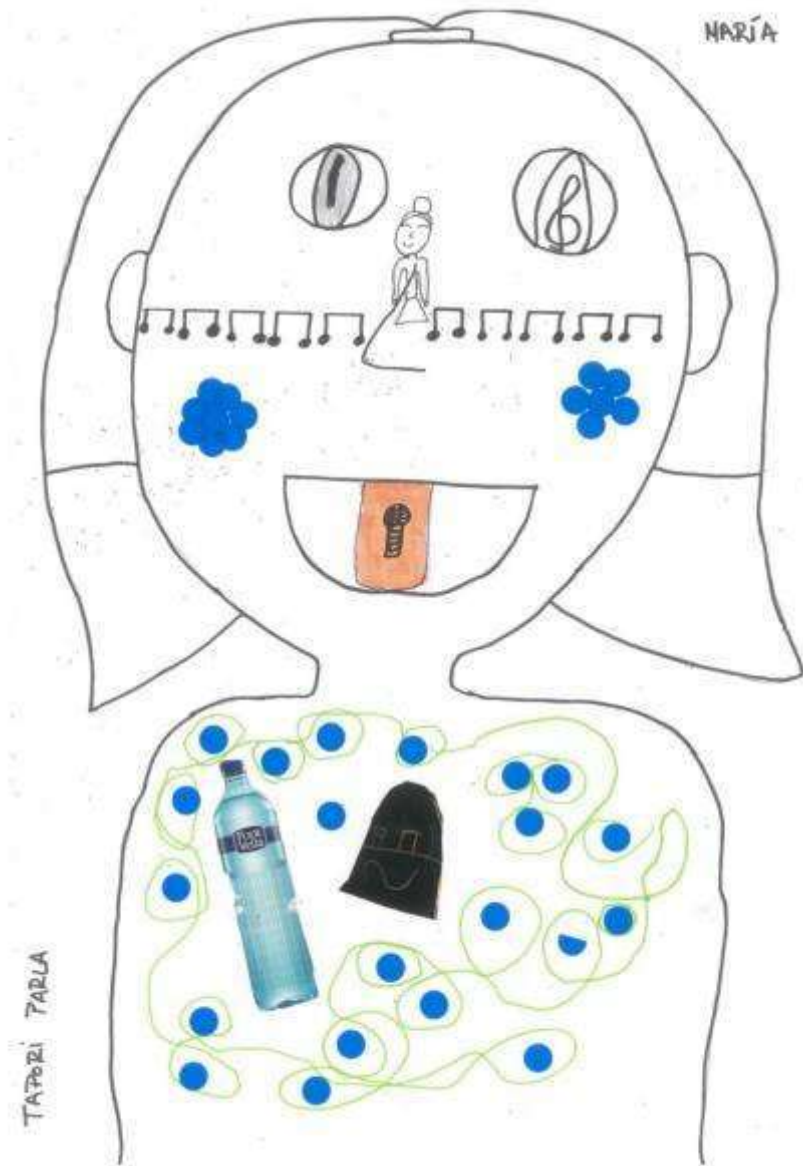

Sheila
TAPORI PARLA

I like gymnastics very much, that's why I put a hula hoop in one of my eyes and a ribbon on my nose, and on one of my cheeks I put a ball, so that all the elements are there. In my hair I make bunches, in one I put a dog because I love animals and in the other an avocado as I eat plenty of them. I also like music, dancing, singing and nature. On one of my eyebrows I put Taponi because I like coming to the group on Thursdays, I like everything we do when we are together. **Sheila**

I would like to discover the world, discover new places. At school we also talk a lot about protecting the planet, so my two eyes are worlds. I have short hair with braids, but I would also like to have long hair in different colours, like the braids of Precious, that's why I put my hair in different colors. I wish I could do gymnastics, that's why I put the ribbon on my nose. I'm not very good at art and I find it difficult to do my self-portrait and to feel proud of my work. **Favour**

I'm too young to know what I want to do when I will be older and I don't want to worry about it.

I like attending school and to be with my friends.

I like gymnastics (nose) and music very much.

I love singing very much.

María

Nadia ♥

I like school very much, especially everything linked to maths, that's why I made my nose with different calculations. I like music and drama very much, one of my eyes is a microphone, I am in drama group at school and I like doing it very much. I also like sports a lot, my other eye is a ball and in my ears I put musical notes, I adore listening to music and sing. I also enjoy doing lettering, as I didn't know how to include it in my portrait I did my name using this technique.

Nadia

My hair is nature, one of the things I like the most is walking with my father in the countryside, that's why I put it in all my hair, it covers my whole head. I love music, it shows on my face because I put a microphone and also on my nose which is a musical note, I like watching videos, singing and dancing. My family is very important to me, that's why I did it big and I put a heart. Loving others is important. My tongue is the sea, I love the Summer and swimming, I like holidays. **Sofia**

I love colours, I love the world and nature, that's why I put a butterfly in my eyes. I like my hair and I imagine it being in several different colours. I wear a crown as I love the paper that it was made from ; all black and the dreadlocks and colours stand out. I love glitter and all that shines ; I am brilliant! **Gift**

I am very happy and I want it to show in my portrait, I like to be happy and I want it to everyone. I am very curious and very studious, because I really care about notes.

I'm very concerned about the earth, that's why I put it in my eyes, because I see it and I don't like what we do to it. In the other eye I put the recycling symbol because I think it's important if we want to take care of the earth. Although in my hair I also put flowers, trees, my earrings are stars, because there is only one earth and it is wonderful, we must take care of it . I also really like cats and music.

group portrait

My favourite animals are cows. I like its size, its colour, the fact that it gives us milk and as a cuddly toy I think it's one of the most beautiful animals. I also love the crab, I am also cancer and it is represented by the crab. One of my favorite things and that I would like to dedicate myself to is art, I am good at drawing and I do

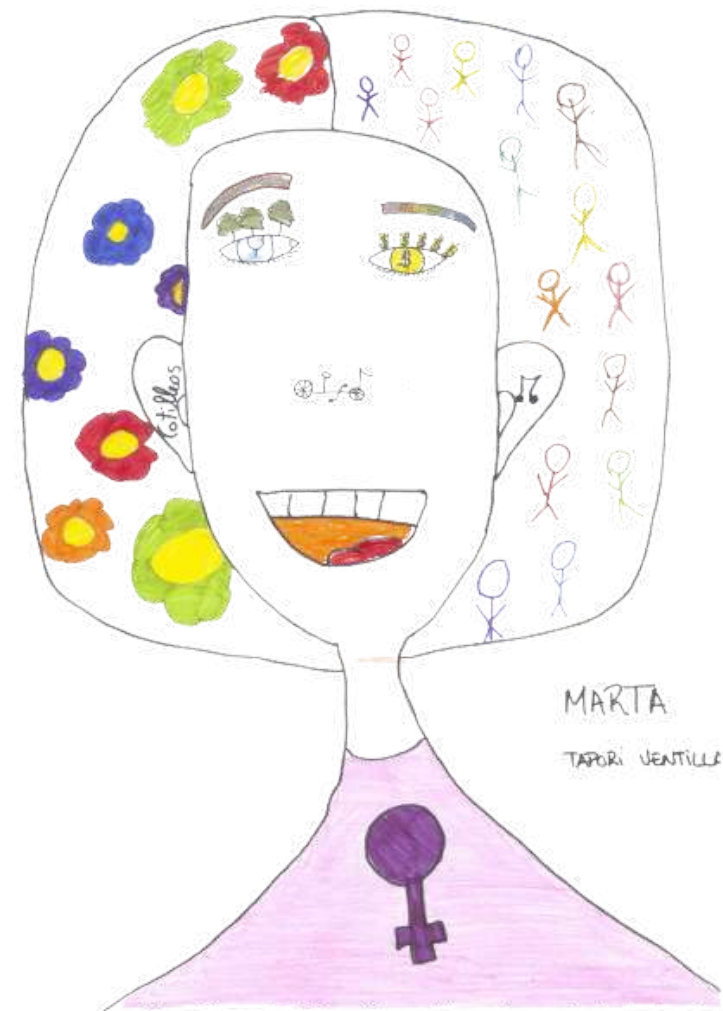

a lot of that, I spend a lot of time drawing, coloring, it makes me forget a lot of things and focus on doing something I love without pressure.

Nature, people are important especially concerning love and joy (eyebrows). I would like them to become very peaceful as I wonder how we can love each other and not hurt each other to live peacefully.

I really enjoy listening to music and I think that it is really something that unites us today, listening to music. Tik tok doesn't divide us it unites us. **Alma**

Tapari Ventilla

I want to be cheerful and happy, fill my head with the people around me, I carry them inside me. But I also have a head full of flowers because I want to see the best in life, even though I often fail to do so. I care a lot about nature and the earth. I like music a lot, especially reggaeton, I listen to it all the time and I do a lot of Tik Tok, that's why it's in my ears.

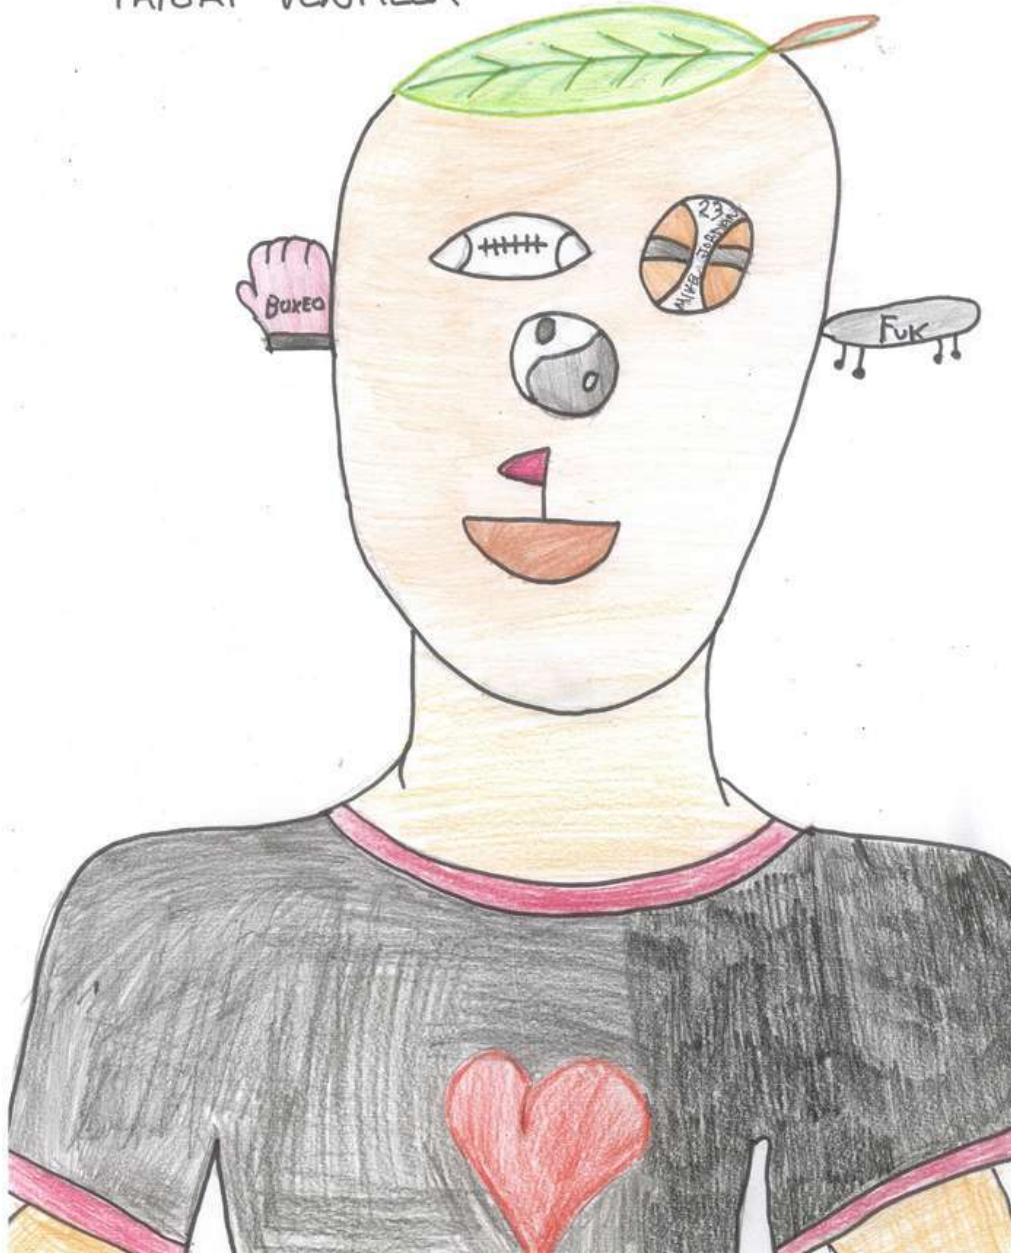

When we cycle with Taporí, these outings are special for me. That's why I drew a bicycle as they are special moments which I like, and outside of our neighbourhood.

And in my eyes, I put a dollar sign as money is important. I don't want to have to worry about it in the future and I don't want my mum to always have to worry about it.. by if she pays or doesn't pay and by having to go to the foodbank. My t shirt shows the women's symbol and their struggle. I try to be a feminist, which comes back to Taporí. **Marta**

SAMUEL

TAPORI VENTILLA

I don't know what I want to do when I am older and I don't want to think about it, now. I know that even if I'm not good at any of them what I like the most is sport; boxing, basketball, rugby, skateboarding and even boating.

I like being in the street, being active, going out; I don't like being in the house at all.

I don't like school either. I like the street. **Samuel**

I don't know how to think about my future. I think it's too early. I like music, I like doing Tik Tok with my mum. But for me the most important thing is the family. It's why I put it in the centre of my face. I also put money as I think that when you have money all will be well. When my mum works and we have money everything is better.

I think that everything is better when we have money and we won't have problems either now or when we are older. When I am older I want to have a lot of money to be able to look after my family so that they no longer lack for anything. **Yanira**

I like Tik tok a lot. As soon as I can or when I'm allowed to, I watch videos on it.

I love football, watching rather than playing, as I'm not very sporty. At the same time I love playing anything that my Tabori friends suggest.

I am very concerned by justice and it's why I'd like to become a lawyer or a judge. Even if I don't think I'll succeed, justice seems very important to me and that everyone is treated equally. **Ryan**

I'm very excitable, it's difficult to sit down and do nothing. My family is very important for me, whether it's here or in Morocco, I always think about them and I love them a lot. It's why I placed them on my head.

I like being affectionate and to be listened to and accepted for who I am. I often fight but only as I can't stay still and I want to be friends with everyone. Sometimes I don't know how to go about it so I end up fighting.

I really like learning even if I have difficulties; school is very important for me. I like Christmas, even if we are muslims, I like Christmas. **Obay**

In my portrait I want things to be clear: I want to become a doctor. Perhaps I won't manage it but what I really believe is the more I study the more my life will change. Even if I like other things today like football and other things I just want to show that I struggle so that my life will change. I know it is not only down to me but I know I don't like how it is. **Sarah**

It's difficult to do a portrait to show everything that we have inside of us ; all that we want to do and be. It's even difficult to think of that. I have never thought of it. I must live life from day to day.

J I like music and I wear microphone-type earrings as I like singing. That is also why I have put treble clefs in my hair.

At the same time, I have drawn dance shoes as I like dancing. I've never had dance lessons though and will never have them.

I draw myself smiling as I would like to always be happy. In my blue eyes I want to represent the fact that I always want to learn, they're always opened wide. **Andrea**

I play football, it's one of my hobbies. I like it as it's a team game and because it's fun. I often miss Tàpori sessions as I have training and even if I like Tàpori a lot I must train with my team to win matches.

I also like other things like cycling and people. I like making new friends; that's why I put so many people on my t-shirt.

My home, my family are the most important for me, that's where I feel good and where I can be myself. I think that the family is a treasure that we must really take care of. **Safaá**

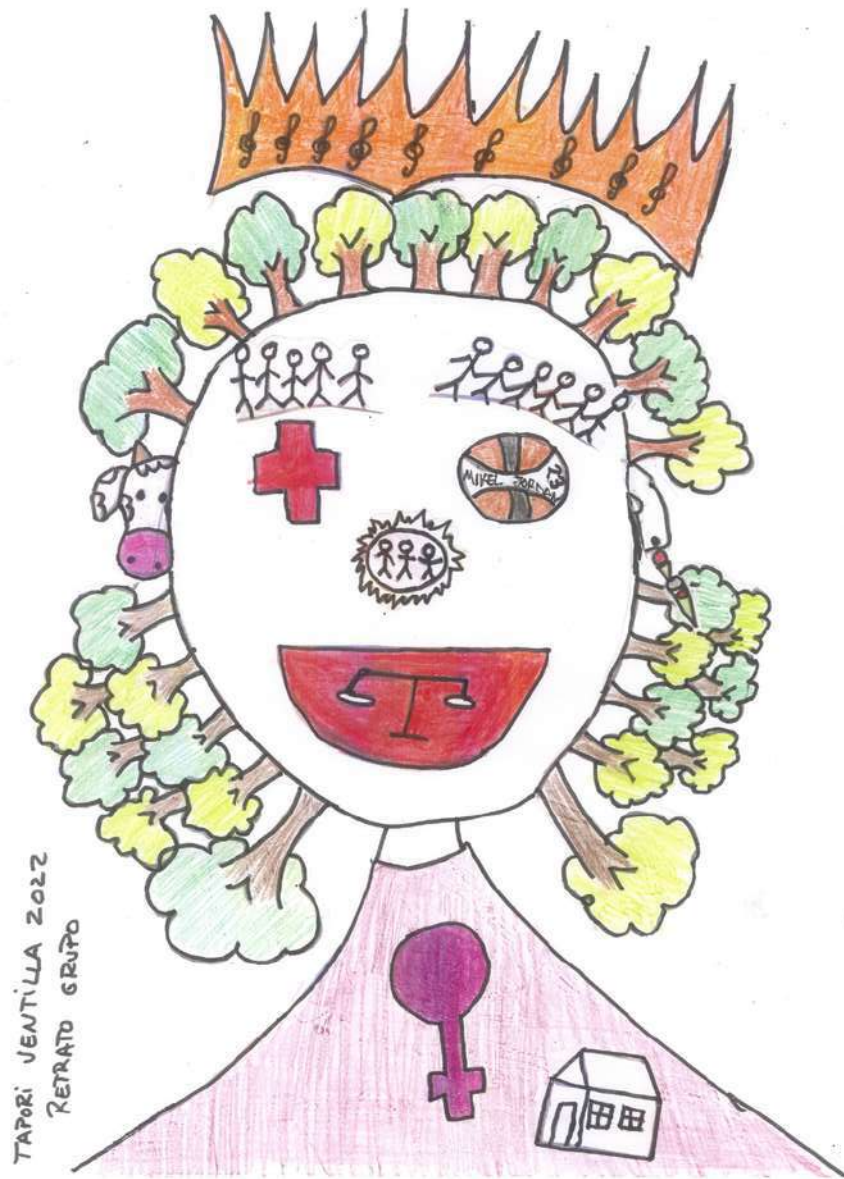

I really like music. I like Tik tok and would like to become a famous Tik toker.

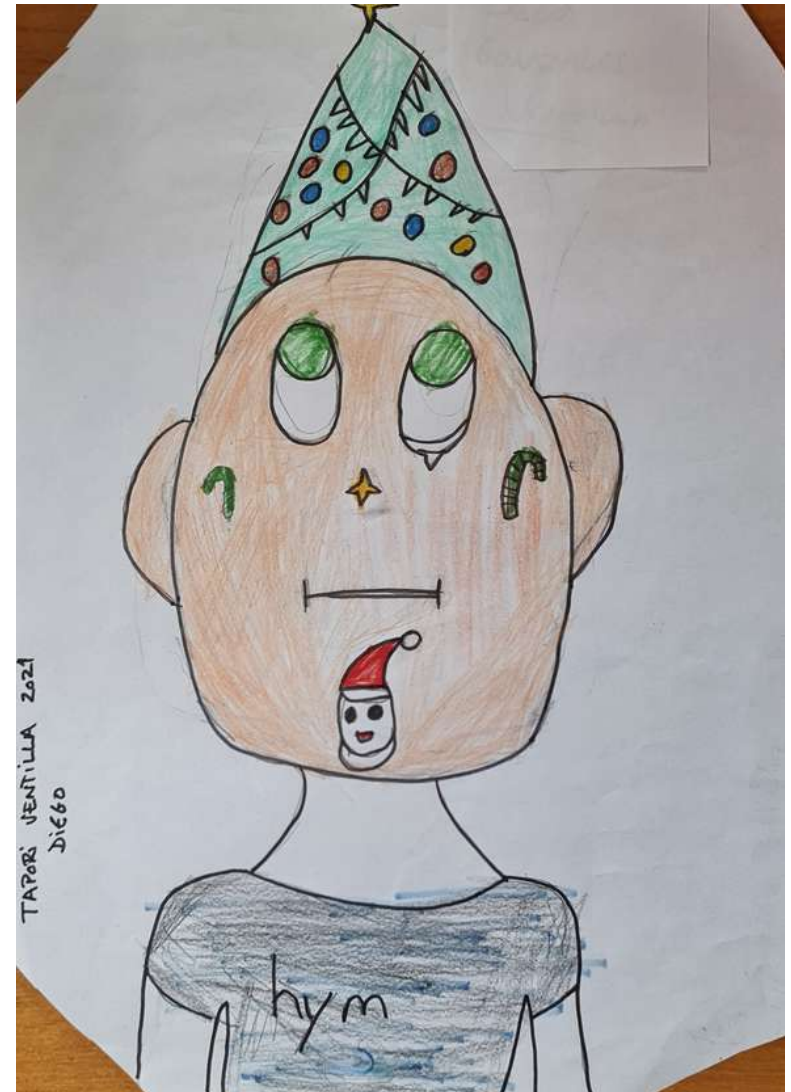

When I am older I'd like to become an architect but not give up music.

I am creative, I like nature having fun and laughing. I like the world in general, the earth and taking care of it.

I also like football and watching my sister playing. I really like making friends and to have people around me. **Marwa**

Diego

I did an abstract drawing: I drew hello in my hair, written in different languages, as I like learning different languages.

I put books in place of my ears as I like reading stories. I drew a castle where my mouth should be as I enjoy visiting castles and a paintbrush on my nose as I like painting.

I like animals. My favourite ones are kiwis and an animal from Australia whose name I have forgotten. I am wearing my Picasso Vallecana t shirt.

I like Taporí because we do activities. I enjoy being here with my classmates and doing activities with the teachers and the others and also as we play games to have fun. The eyes are dogs; German Shepherds as I will be having one.

The two houses are my ears. The nose is on a paintbrush as I like painting as I did for this portrait. There are also snowflakes as I love snow and I want it to snow for Christmas ; to be a white Christmas. The family is the mouth as I like spending time with my family. I put feathers as I am very often quiet but I am also nervous and that worries me. I cannot abide being disturbed and I become very nervous. When I am annoyed I hit people. I put a chain as I have a gold chain.

I drew a heart for my family; for friendship, too; the magnifying glass is for research, things like that. A pencil case because I like colours. The football pitch as I love football. The cat because I adore cats like that, very small ones. The trees because I love fruit trees. And boys, the small dolls are my friends. And the question mark for a problem that is unsolved. The mouth is made up of stars as I like how they shine.

The eye is a triangle, because I love numbers and geometry. **Romel**

Those are the drawings of things that I love.

The eyes are pizzas. The nose is a basket ball net. The ears are boxing gloves as I love boxing. I put a tattoo of a number 10 as I will be ten years old soon. For my hair I drew a computer with a gold chain with the initials of my best friend and glitter as I like that, They represent the colours of the world. The red and white colours represent Christmas; my favourite celebration. **Alberto**

In the hair I put the bristles of a brush. In my eyes are paint palettes as I love art. There is a paintbrush for the nose. On my ears there are hedgehogs as I really like them.

TAPORI IN THE UNITED STATES

Tapari Boston

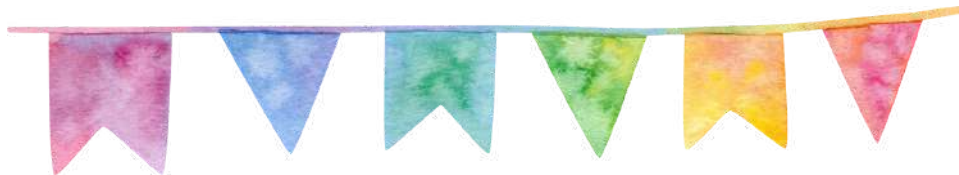

I love all types of animals, even if they scare me or beat me, like snakes and tigers. I had animals, a big Huskie called Lobo. I had chickens in my garden. At the beach, my sister tried to steal a duck!

I would like to be a singer, a doctor and a police officer. I would also like to help poor people. I will be so rich that I will buy houses for the poor. And also, help them find work.

What makes me happy is playing with animals and babies. What makes me sad is when I want to play and they don't. And also, when people insult me or intimidate me. When they say I'm not from the United States, but from another country. I get sad when people are rude to me. I prefer gym and art, but outdoors.

I get angry when I try to talk to a baby and he won't listen to me. I have a happy personality, I am always smiling. But I talk too much!

Nishi

What I like about me: my personality. I can sometimes be obnoxious. I am funny and a good dancer. I'm good with myself because I like who I am.

I'm sad when my family members die, especially people very close to me, like Grandpa Ronnie. He died of brain cancer.

Sometimes I get mad at my 4-year-old brother because he's so tiring. He throws things at me. MIZAE

I like the color blue because it reminds me of the sky. I like to look at myself in the mirror every day.

I like to play with other children, especially with Roblox and Fortnite, video games.

Me and my best friend, Mizae, we are very good dancers. We love to dance and make art.

My favorite subject is art.

There are three things I want to be: an artist; i want to teach children how to do gymnastics, and be a ballet dancer. I put art in my gymnastics and gymnastics in my ballet!

My family makes me happy because they take care of me.

My sister makes me angry... and makes me sad.

Who makes me laugh? My sister, mom and dad, but especially my grandmother. She's the funniest of the family. It makes me laugh when she sings loudly and screams! **Taliyah**

I' m proud to be an Afro-American and of my culture. I really like music and that is why my self portrait shows my love for Hip hop.

My eyes are closed as I am very calm when I listen to music. My mouth is represented by a golden chain and I wear earrings. This is because I find that Hip Hop has a lot to do with style. **Quamaine**

I like making people laugh so i drew a turtle as I like them.

Maxwell

I drew a flower where my mouth is, as I give flowers to people to make them happy. I want to show that I am kind.

Lorena

I will be 11 soon and i wear a hat as I adore Michael Jackson.

I love reading and so I wrote the names of my favourite books on my hijab and my portrait shows me wearing my reading glasses. **Selma**

My ears, my eyes, my nose and my mouth are figures as I like them and it shows my creativity. I have a snake on my head as I love animals. My self portrait also shows my interest for Roblox. **Amare**

The paintbrush on my head is to show i like doing art and the one on my cheek is to show make up as I like being attractive. The bow in my hair and the earrings are also to express my creativity. **Leila**

A lightbulb coming out of my head as I always have a lot of ideas. My nose is a number seven as there are 7 members of my family. My nose is also a trait that I have in common with my family. **Diarely**

In our group we love animals and nature which we have represented by a tree and a snake. We also love music, so one ear is a music box and the other has music notes. Our family is very important to us and we carry it in a heart on our chest.

Represent yourself through the clothes you like to wear.

The idea was to allow children to express themselves through the fabrics and types of clothing they choose and through their physical characteristics. At the end, there was a line with all the individual silhouettes and also a giant silhouette whose idea was that everyone could add their own clothes, their own colors.
