

# Tapori newsletter

Tapori is a worldwide friendship network which brings together children from different backgrounds who want all children to have the same chances. They learn from children whose everyday life is very different from theirs. They think and act for a fairer world by inventing a way of living where no one is left behind.

## In search of our human treasures

We are the children we are, thanks to the treasures around us and thanks to all that have been handed down to us as heritage. This is what we have been working on during the campaign "In search of our human treasures".

In this letter, we shall discover how being aware of our treasures shows us who we are as human beings, but also as a Tapori group.

We are rich with our human treasures, but even more so when no child is left out!

During the campaign, each Newsletter has taught us something about ourselves, about those around us, about our Tabori group and about who we want to be together.

## In search of our human treasures

When we were reflecting on what treasures are and where we wanted to keep them, we learned that treasures are not only material. We have human treasures around us and we have to care for them.

By discovering the significant sayings and proverbs of our families, we became aware of the strengths they have passed on to us.

By sharing our portraits, we were able to listen to each other and get to know the children who are part of our Tabori group.

By identifying the people and places that fill our hearts and minds, we realized that our Tabori group helps us feel good.

Finally, by sharing about the celebrations that are most important to us, we realized that we can only celebrate together if all the children are present.

*Party* *C'est la fête!*

Human treasures give us strength to become actors of change.
